Resume

Business and Data Consultant with +8 years of experience, knowledge in variety scenario of business projects, actually helping enterprises by defining and recommending solutions that deliver value to stakeholders by understanding the current state, to define the future state and determine the activities to move from the current to the future state.

Experience

Cappgemini Engineering
Senior Consultant
march de 2024 - Present (9 month)
Lisbon, Portugal

I specialize in helping enterprises understand their primary goals and performance by analyzing Key Performance Indicators (KPIs). By collaborating with stakeholders, I identify business needs and translate them into actionable data requirements. I am proficient in advanced DAX, enabling me to create complex calculations and enhance data models within Microsoft Power BI.

My expertise lies in transforming complex data into meaningful insights, developing effective Business Intelligence (BI) strategies, and delivering impactful data solutions that drive informed business decisions. With strong analytical, problem-solving, and communication skills, I have a proven track record of leveraging data-driven insights to influence strategic initiatives.

Tools:
+ Microsoft Power BI
+ AWS Redshift
+ Python

Power IT Consulting
Business Intelligence Consultant
May 2022 - march 2024 (1 year 11 month)
Lisbon, Portugal

Power BI Expertise:

I designed and implemented dashboards and reports in Microsoft Power BI, incorporating advanced DAX calculations to provide deeper insights and enhance data visualization. I established metrics and Key Performance Indicators (KPIs) to support data-driven decision-making and effectively managed the Power BI Service. This included monitoring usage, conducting ETL processes, and optimizing data modeling for improved performance.
